NOTES

CHART OF MAINTENANCE RESPONSIBILITIES:

This chart and the titles and headings used herein are not intended to describe or encompass all maintenance functions nor to delineate all respective responsibilities between the unit owners, severally, and the Council. The placement of responsibility under any specific column does not always accurately reflect the precise character and nature of ownership. The appropriate sections of the Declaration determine ownership. In many cases maintenance responsibility is allocated to the Council of Unit Owners to ensure central maintenance responsibility, uniformity and quality of repair, and to protect community health and safety. Where such maintenance is required due to the negligent or wrongful act or omission of a unit owner (or his family, tenants, employees, agents, visitors, guests or pets), the Council will perform the necessary maintenance at the sole expense of the unit owner.

Column I: Items. Items appearing in this column are illustrative and not exhaustive.

Column II: Common Elements Under Council Responsibility. Responsibility for determining and providing for the maintenance, repair and replacement requirements of the common elements and determining the costs thereof shall be primarily the responsibility of the Board of Directors and such designees to which it may delegate certain such responsibilities.

Column III: Limited Common Elements Under Council Responsibility. Responsibility for determining the maintenance, repair and replacement requirements of the limited common elements shall be a shared responsibility between the Board of Directors and the unit owner of a unit to which a specific limited common element is exclusively appurtenant; provided, however, that the Board shall have the final responsibility for determining the need for and accomplishing such maintenance, repair and replacement activities.

Column IV: Unit Components Under Council Responsibility. The items in this column are legally and by definition a part of a unit but are attached or directly connected to or associated with the common elements and common expense items in such a way that a clear distinction between unit owner and Council responsibility cannot be made. Moreover, such items frequently involve matters of concern relative to the general health, safety and welfare of all of the occupants of the building. Thus, certain costs which appear to benefit a single unit owner but which affect other unit owners are declared a common expense, especially when the correct functioning of an activity or element is integral to or supportive of the legally defined common elements and common expenses.

Column V: Certain Other Components Under Unit Owner's Responsibilities Without Respect to Ownership of the Component. The items in this column are not intended to be exclusive and all-encompassing and do not affect responsibilities expressly provided for otherwise.
